

The International Forum “Innovation Market 2020” will take place in Kyiv.

The International Forum “Innovation Market 2020” will take place on November 5–7, 2020 at the International Exhibition Center (15, Brovarskyi Ave., Kyiv)

With the support of the Cabinet of Ministers of Ukraine (<https://www.kmu.gov.ua/npas/249520596>), an important event for the country’s development — the International Forum “Innovation Market” — takes place annually in Kyiv. The purpose of the event is creation of a communication platform for the innovation projects in the various spheres of activity presentation, attraction of foreign investments to the country, promotion of the scientific & research, scientific & production institutions and enterprises’ products introduction.

According to Anatolii Tkachenko, the Director General of “International Exhibition Center” LLC, the Member of the “Innovation Market” Forum organizing committee, “Ukraine has the things to be proud of: the number of innovation projects, inventions, new ideas in the various spheres of activity, which we can observe over the year at sectoral exhibitions, is impressive. Our mission is, jointly with our partners, to create an original networking for innovators and those who are interested in the latest technologies implementation. It is a platform for communication that can be used by all interested persons: from pupils and students to representatives of government institutions and international corporations”.

The program of the anniversary Forum “Innovation Market — 2020” provides a number of innovations, among which is the pitching of the winners of the International Junior Innovation Contest “Junior Startup Camp”, organized by the event partner the Junior Academy of Sciences of Ukraine. Representatives from China, Turkey, Azerbaijan, Costa Rica, Philippines and other countries of the world are expected to participate in the pitching. Negotiations regarding the international experts in innovations from the pitching participating countries taking part in the conference program and exhibition area are being held.

Together with the permanent and reliable partner, the State Investment Finance Company of Ukraine, a number of discussion panels and debates concerning innovations development and financing promotion in Ukraine is planned.

“We are working on creation of a meaningful program and interesting speakers, participants, potential investors, who do not just believe in future, but who try to create it ahead of time involvement in the International Forum “Innovation Market”, emphasized Oleh Litetskyi, the Deputy Director General of IEC LLC, the Manager of the “V International Forum Innovation Market — 2020”
